

Most of my life I have had very bad headaches and dizzy spells that would incapacitate me for 3-4 days at a time. My family doctor sent me to an ear doctor, who in turn sent me to Dr. Scott K Sanders who put me through several tests. He put me on a \$4 medication that I take at night. I feel my life has made an about face! The headaches and dizzy spells have for the most part gone away. I thank Dr. Sanders for a new lease on life. I feel very blessed.
