

Thanks Dr. Sanders for bringing your practice here!  
BalanceMD is a wonderful resource for the Lafayette area. Dizziness and vertigo is confusing and, at times difficult to explain. So, it's wonderful to have a great specialized specialist! We eliminated a few possibilities in my case, and the PT was simple, but very valuable. The audiologist is amazing and takes great care of her patients. Explains and comforts well and is very responsive to questions which is great! I learned a lot and will use the help going forward in life. Thanks all! Wonderful, friendly office staff too!
