(b) A provider may not use telemedicine, including issuing a

prescription, for an individual who is located in Indiana unless a provider-patient relationship between the provider and the individual has been established. A provider who uses telemedicine shall, if such action would otherwise be required in the provision of the same health care services in a manner other than telemedicine, ensure that a proper provider-patient relationship is established. The provider-patient relationship by a provider who uses telemedicine must at a minimum include the following:

The requirements in this subdivision do not apply when the provider is using an electronic health record system that the patient's primary care provider is authorized to access.
- (7) Issue proper instructions for appropriate follow-up care.
- (8) Provide a telemedicine visit summary to the patient, including information that indicates any prescription that is being prescribed.

Sec. 8. A provider may issue a prescription to a patient who is receiving services through the use of telemedicine even if the patient has not been seen previously by the provider in person if the following conditions are met:

- (1) The provider has satisfied the applicable standard of care in the treatment of the patient.

an individual who is located in Indiana.

(b) A provider described in subsection (a) may not establish a provider-patient relationship under this chapter with or issue a prescription under this chapter for an individual who is located in Indiana unless the provider and the provider's employer or the provider's contractor, for purposes of providing health care services under this chapter, have certified in writing to the Indiana professional licensing agency, in a manner specified by the Indiana professional licensing agency, that the provider and the provider's employer or provider's contractor agree to be subject to:

(1) the jurisdiction of the courts of law of Indiana; and

(2) Indiana substantive and procedural laws;

concerning any claim asserted against the provider, the provider's employer, or the provider's contractor arising from the provision of health care services under this chapter to an individual who is located in Indiana at the time the health care services were provided. The filing of the certification under this subsection shall constitute a voluntary waiver by the provider, the provider's employer, or the provider's contractor of any respective right to avail themselves of the jurisdiction or laws other than those specified in this subsection concerning the claim. However, a provider that practices predominately in Indiana is not required to file the certification required by this subsection.

(c) A provider shall renew the certification required under

subsection (b) at the time the provider renews the provider's license.

(d) A provider's employer or a provider's contractor is required to file the certification required by this section only at the time of initial certification.

Sec. 10. (a) A provider who violates this chapter is subject to disciplinary action under IC 25-1-9.

(b) A provider's employer or a provider's contractor that violates this section commits a Class B infraction for each act in which a certification is not filed as required by section 9 of this chapter.
